THE CAUSE

The Els for Autism Foundation was established in 2009 by Liezl and Ernie Els shortly after their son Ben was diagnosed with autism. The funds raised from the Golf Challenge go towards the building of a physical and virtual Center of Excellence that will reach out and make a difference to families with children on the spectrum across the U.S. and internationally.

The state-of-the-art Center, scheduled to break ground in 2013, will include an educational program for 300 students aged 3-21, medical and professional services, and transition to adulthood programs. Nationally and internationally, through the use of leading edge technology, families, researchers and educators will share and have access to best practices from experts in the field of autism.

- Autism is a general term used to describe a group of complex developmental brain disorders
